For riders arriving later, a private transfer can be organised - but please contact us in advance. Flights are not included but can be booked upon request.

Hisarya is a small resort town in central Bulgaria, located in the Plovdiv province. It sits at an elevation of 368 m. Hisarya has 22 hot water springs that have been actively used since ancient times: water temperatures vary from 44-55°C. This area has always attracted settlers due to the abundance of water. Thracians first settled here IV-III century BC. Later, the Romans arrived to these lands, transforming the town. They built a beautiful city, wide streets, stunning courtyards, villas, marble baths, aqueducts, sewage systems and an amphitheater. Ruins from the Roman period are still well-preserved in the modern city of Hisarya.

## TRAVEL INFO

## COMFORT

Your accommodation throughout the trip will mainly be 2 star or 3 star hotels, most of them offering spa services.

Picnic lunches carried by each rider in their saddlebags or organised by the local team (vegetables, warm soup, BBQ, fruit or sandwiches).

Dinners at local restaurants and at the hotels.

Alcoholic drinks are payable locally but beer is provided with your picnic.

Traditional Bulgarian cuisine is influenced partly by the culinary customs of the other Balkans nations and shares common features with Greek, Turkish and Serbian cuisines. Bulgarian food is tasty and diverse. The geographical location of the country and its mild climate allow perfect conditions for growing different vegetables, fruits, spices and herbs which are fundamental ingredients in all Bulgarian dishes. Bulgaria is also famous for the diversity and quality of its dairy products which are widely used in the preparation of typical Bulgarian food.

Another interesting feature in Bulgarian cuisine is the fresh bread, made mainly from white or wholegrain flour, which is an accompaniment to every main meal.

Vegetarian and gluten-free diets can be accommodated - please let us know at the time of booking. Vegan diet can be difficult in rural Bulgaria!

## CLIMATE

The location of the Rhodopes in the south eastern part of the Balkan Peninsula determines the region's climate to a great extent. The climate is influenced both by the colder air coming from the north and by the warmer breeze from the Mediterranean. The average annual temperature in the Eastern Rhodopes is 13 °C (55 °F), the maximum precipitation is in December, the minimum in August. In the Western Rhodopes, the temperature varies from 5 to 9 °C (41 to 48 °F) and in the summer rainfalls prevail.

The mild climate, combined with some other factors, works in favour of outdoor activities.

## TIPS

Tipping is not compulsory but will be very much appreciated if you enjoy the services provided by the team. Tipping is totally at your discretion.

## SUSTAINABLE TOURISM

1. **Travel light.** It's a little known fact, but the lighter you pack, the better for the environment as heavy bags will produce higher emissions (when flying a plane or driving a car!).
2. **Reduce plastic waste.** Take your favorite reusable bottle with you. Avoid single-use bags, cups, or straws.
3. **Preserve nature.** Always take your rubbish with you during the ride and recycle them. Leave all the flowers or plants as you found them, and never get too close when observing wildlife. Make sure to use eco-friendly products such as body wash or laundry detergent (if camping) to protect both your skin and the environment.
4. **Choose your experiences carefully.** Respect animal life by not participating in any activities that abuse wild animals (shows, elephant rides, etc.).
5. **Support local populations.** Buy local handicrafts, be respectful of customs, and learn about the culture of local communities.

6. **Share!** Raise awareness among your family and friends about sustainable tourism.
