EQUESTRIAN INFO

Horses

The horses are Arabian and Arabian Cross. Only one mare is of Turkish Anatolian type (ancestor of the Purebred Arabian). You will find mostly mares

and some young geldings that were born on the farm. The horses have lively temperaments and excellent stamina, but some are more relaxed and suitable to novice riders. They are sure footed and have an average size that varies between 14.3 - 16.1 hands depending on the horse. Young children who may not be experienced or confident enough to ride these horses can ride donkeys instead - please contact us regarding your child's riding skills (donkeys are not suitable for children over 30 kg).

Guide & local team

Your lead guide Nicolas has been living in Cappadocia for over fifteen years. You will discover his and his wife Helene's traditional farm built in the rock on the first and last days.

Minimum riding ability

MINIMUM RIDING ABILITY

This ride is open for families: adults and accompanied children from 8 years old. This holiday is perfectly suitable for beginners and intermediate riders (as part of a family trip), but more experienced riders are welcome too. Please keep in mind that the group will ride to accommodate the weakest rider's abilities. The program can be modified upon request, depending on the participants' ages, interests and individual energy.

IMPORTANT: The Arab and Anatolian horses are endurant but very small in size. Our horseback holidays in Cappadocia require a great amount of sustained effort from the horses which is why we are very strict with riders' weight. There is a strict 85 kg / 13.3 stone / 190 lbs rider weight limit on this trail (including riding gear). If you weigh more than that, an additional horse can be arranged at a supplement, please contact us before booking.

PACE

Riders will have the opportunity to practice all three paces based on their own riding ability: walk, trot and some canters. Some of the hiking trips will be guided while others will be 'self-guided' with the use of a GPS device (training will be provided). For the hikes in Ortahisar a donkey will be available for children under 30kgs.

TACKING ABILITY AND PARTICIPATION

The horses will be tacked by the local team, unless you would prefer to prepare your horse yourself.

TRIP CONDITIONS AND REQUESTED EXPERIENCE

A reasonably good physical condition is required. The trails can be adapted to suit different abilities and individual levels of energy. This programme involves hiking as well so you must be fit enough for this. Beginner and Intermediate riders are welcome to enjoy the trail, more experienced riders should bear this in mind.

EQUESTRIAN EQUIPMENT

McClellan type light trail saddles with saddlebags

We recommend our riders to wear a helmet to the correct standard and you should bring your own to ensure a proper fit. Helmets are not provided on this ride.

TRAVEL INFO

COMFORT

You will be welcomed in two charming Ottoman guest houses in the heart of Cappadocia.

In Ortahisar: You will stay in an en-suite room decorated in the purest Anatolian style. The guest house has a large terrace where you can enjoy tea and coffee. Your host will prepare tasty traditional meals every night for dinner.

In Urchisar: You will stay in a troglodyte guest house in the heart of Uçhisar village overlooking the famous Pigeon Valley. The rooms are also en-suite and have been recently renovated. With its very scenic views dominated by rocky landscapes visible for miles around, the village of Uçhisar is one of the most beautiful sites in Cappadocia. The troglodyte tuff cones and years of erosion in the Pigeon Valley offer quite a striking sight. Uçhisar is located just a few kilometres away from Göreme, a village famous for its painted rock churches.

Lunches are taken in village restaurants and in the summer most restaurants have a pool where you can take a refreshing dip.

MEALS

Breakfast: Turkish and continental (taken at the guest house)

Lunch: Typical Turkish meals (taken in restaurants and inns)

Dinner: Anatolian specialities - Appetizers, one or two main courses and dessert.

Vegetarian options are offered on request. Alcoholic drinks (Cappadocian wine and beer) available as an option and payable locally. Tea and coffee are available. Other drinks are to be paid on site.

Water is provided during your stay.

CLIMATE

Cappadocia has a continental climate, with hot and dry summers but never extremely hot thanks to the altitude. Winter is usually cold and snowy. Nights are always cool, even in summer.

Average temperatures in this region are 11 ° C in April, 16 ° C in May, 20 ° C in June, 23 ° C in July and August, 18 ° C in September, 13 ° C in October and 8 ° C in November. Spring can be rainy and you should be prepared for unpredictable weather!

TIPS

Tipping in Turkey is not compulsory, but it shows appreciation for a good service. In restaurants it is customary to tip almost 10% of the total bill. Some restaurants already include "service charge - 10%" in the bill, in which case it would not be considered rude if you do not leave a tip.

For the equestrian team, tips are not mandatory but would be highly appreciated. However, the amount you would like to tip will be left at your discretion.

PACKING LIST

If you would like to take a camera, you would need to take a device that can be held with just one hand to allow the group to continue to move forward and for you to still have some control over your horse.

Head

- A riding helmet is strongly recommended and often compulsory (mandatory for children). Helmets are not provided on this ride. Helmet manufacturers (GPA, HKM, LAS Helmets, Lamicell, Troxel, Equithème) now offer horse-riding helmets that are ventilated, strong, light and comfortable. You also have the option of buying protective shells to go under your hats (Ranch & Rider, Lexington Safety Products) or western hat helmets (Troxel)

- Sun hat when not riding (essential)

- Sunglasses-with a cord attached so they don't fly away when galloping.

- Buff or bandana for protecting your neck and face from the sun and dust.

Upper body

- Thermals (long or short sleeved)

- Long sleeved shirts to provide protection from the sun.

- T-shirts

- Lightweight fleece or jumper.

- Warm polar fleece or equivalent (depending on the season)

- Waterproof jacket- rain is difficult to predict, it is better to be prepared.

Legs

- Riding breeches or long leather chaps. We recommend riding in them at home to ensure they won't rub during your holiday.

- Casual clothes for the non-riding days (jeans or walking trousers)

- Swimsuit - for dips in the pool.

Hands and Feet

- We recommend that you bring hiking shoes with half chaps as some of the passages you may take on foot can be steep. Riding boots are not suitable as they don't have enough grip.

- Walking shoes for the hiking trails

- Lightweight shoes or trainers for the non-riding days.

- Several pairs of socks

- Gloves - your hands are particularly exposed to the sun, wind or rain whilst riding

Nightwear

- Pyjamas

Our Recommendations

- Backpacks cannot be worn whilst riding. We recommend a small bum bag or a coat with pockets so that you can carry small items with you during the day (passport, camera, sunscreen, lip balm etc)

- Any liquids in your hold luggage, such as shampoo, moisturizer, over 100ml should be decanted into small, clear, plastic ziplock bag. We recommend biodegradable washing products where possible.

- In your hand luggage take any valuables, such as your camera, ipod, ipad etc.
- Travelling in your boots/ hiking shoes and carrying your hat and some riding clothes in your hand luggage is highly recommended - then if your luggage goes astray you are still able to ride!

Other useful items:

- Camera and high capacity memory card. Spare battery
- Headlamp, batteries and spare bulb
- Bumbag for carrying your camera and small items whilst riding
- Water bottle (2 litres or 2 x 1 litre in the summer, 1L in the spring/autumn)
- Ear plugs (for light sleepers)
- A pair of binoculars if possible

Medical kit

- Sunscreen and lip balm - should be high factor
- Insect repellent
- Any medication you regularly take
- Blister plasters in case of any rubs
- Antiseptic cream, plasters, aspirin, anti-histamine, insect-bite salve etc...
- Spare prescription glasses/contact lenses
- Eye drops
- Imodium or similar anti-diarrhoea medication
- Re-hydration sachets
- Antiseptic wipes
- Hand wash gel

Our Recommendations

- Take a second, smaller bag to pack things you may need during the day such as a book or sunscreen then you can easily access it during the long lunch break
- We recommend travelling in your riding boots and carrying your hat and some riding clothes in your hand luggage - then if your luggage goes astray you are still able to ride!
- You should also bring a copy of your passport/insurance in case you lose your documents. You can also save a copy into your mobile phone.

SUSTAINABLE TOURISM

1. **Travel light.** It's a little known fact, but the lighter you pack, the better for the environment as heavy bags will produce higher emissions (when flying a plane or driving a car!).
2. **Reduce plastic waste.** Take your favorite reusable bottle with you. Avoid single-use bags, cups, or straws.
3. **Preserve nature.** Always take your rubbish with you during the ride and recycle them. Leave all the flowers or plants as you found them, and never get too close when observing wildlife. Make sure to use eco-friendly products such as body wash or laundry detergent (if camping) to protect both your skin and the environment.
4. **Choose your experiences carefully.** Respect animal life by not participating in any activities that abuse wild animals (shows, elephant rides, etc.).
5. **Support local populations.** Buy local handicrafts, be respectful of customs, and learn about the culture of local communities.
6. **Share!** Raise awareness among your family and friends about sustainable tourism.
