Their average height is around 14.3hh.

Guide & local team

Your guide is an experienced professional; he will be able to answer all your questions about the area and its inhabitants. A team of baqueanos is also there to take care of the horses, the camp and the safety of the group, as they are very knowledgeable about the natural environment.

Minimum riding ability

MINIMUM RIDING ABILITY

To participate in this holiday, you must be comfortable in all three gaits across varied terrain.

For riders above 95kg / 210 lbs / 15 st, an additional horse will be provided for an extra cost (check "Dates&Prices" tab).

PACE

On this riding holiday, there are a few trots and canters but the predominant pace is the walk. There are days where you could be spending up to 8 hours in the saddle, depending on local conditions.

TACKING ABILITY AND PARTICIPATION

The team of Baqueanos will help you saddle and groom your horse.

TRIP CONDITIONS AND REQUESTED EXPERIENCE

You might need to dismount and lead your horse on some parts of this ride. The ride is not overly technical but the terrain can be somewhat tricky with river crossings and some elevation. You should be in good physical condition to tolerate the altitude and the long hours in the saddle. Riders who do not ride regularly are requested to get riding fit before they join this horseback holiday. This is best suited to riders with a sense of adventure.

Please note that it is not possible to recharge your electronic devices during the ride. Your belongings will be carried by pack horses in special expedition bags and are limited to 10 kg per person.

EQUESTRIAN EQUIPMENT

Gaucha tack, comfortable saddles with a sheepskin cover. Saddlebags and expedition bags are provided. Helmets are strongly recommended.

MEALS

On this trip, you can expect a special blend of flavours and ingredients from the Patagonian Creole gastronomy. The main dishes vary between traditional "asados", rainbow trout, with salads and potatoes. There are also a variety of fruits and vegetables available.

Lunches are picnic lunch boxes prepared in the morning and carried in your saddlebag: sandwiches, fruit, chocolate or cereal bars.

Please note that the meat is a very important element in the local cuisine.

Vegan and gluten-free diets cannot be accommodated due to the remote nature of the ride and difficulties to source suitable produce. Food allergies can be catered for to some extent, please contact us before booking.

CLIMATE

The climate in Patagonia is quite unpredictable, so you have to be prepared. Very early in the mornings or at nightfall it can get very cold at 0°C, and can reach 30°C in the middle of the day. It is also likely to rain at some point, although the rainy season usually starts in late autumn. To deal with these temperature changes, it is a good idea to wear layers in your clothing, which you can remove as the sun begins to warm up.

From mid-December to the end of January, horse flies are very common in this area. They are very attracted to dark coloured clothes such as blue or black and less attracted to light coloured clothes such as white or yellow. Please keep this in mind when choosing your clothes for the trip.

Nights can be cold and in the mountains temperatures can drop sharply and frosts are not uncommon. Rain is unlikely in June and July, but possible in September.

TIPS

Our suggestion is around \$10/day which will be distributed to the team at the end of your stay.

PACKING LIST

IMPORTANT NOTE: During the month of January, horseflies are present. These are harmless but troublesome and are especially attracted to dark colours. It may be wise to choose your clothes accordingly and dress in light colours.

After the horsefly season, a species of wasp appears. If you are allergic to the stings, it is imperative that you bring appropriate treatment.

On arrival in Bariloche on Day 2, you will be given a bag with up to 10kg of luggage to carry your belongings in. You will be able to leave the excess luggage at the hotel, which you will find on day 8.

Our Recommendations

- We recommend travelling in your riding boots and carrying your hat and some riding clothes in your hand luggage - then if your luggage goes astray you are still able to ride!
- You should also bring a copy of your passport/insurance in case you lose your documents. You can also save a copy into your mobile phone.

-
1. **Travel light.** It's a little known fact, but the lighter you pack, the better for the environment as heavy bags will produce higher emissions (when flying a plane or driving a car!).
 2. **Reduce plastic waste.** Take your favorite reusable bottle with you. Avoid single-use bags, cups, or straws.
 3. **Preserve nature.** Always take your rubbish with you during the ride and recycle them. Leave all the flowers or plants as you found them, and never get too close when observing wildlife. Make sure to use eco-friendly products such as body wash or laundry detergent (if camping) to protect both your skin and the environment.
 4. **Choose your experiences carefully.** Respect animal life by not participating in any activities that abuse wild animals (shows, elephant rides, etc.).
 5. **Support local populations.** Buy local handicrafts, be respectful of customs, and learn about the culture of local communities.
 6. **Share!** Raise awareness among your family and friends about sustainable tourism.
