EQUESTRIAN INFO

Horses

The ranch has about fifteen horses. Some horses you will meet at the ranch were rescued by WNCR (the Walking N Circles Ranch) from abandonment or from owners unable to care for them, then followed a rehabilitation and training program with Mel and Justyn: to name a few, you will meet Rain, Cash, Dandy, Indy, Goober... They were adopted and trained using natural ethological methods. Now given a second chance, they are excellent trail horses and fun to ride! They are ridden Western and/or English but are ridden with loose reins. They are local American breeds, typically working horses (Quarter Horse, Paint, or Mustang).

Guide & local team

The ranch is a family affair with mother/daughter team Mel and Justyn in charge. Their passion for horses has span from ranches to show rings, race tracks to trail rides. For many years Mel and Justyn traveled all over the world for riding vacations and worked with their local horse shelter rehabilitating rescue horses. It was in 2012 that they decided to combine their love of travel, trail riding, and rescue horses. They spent a month in Africa volunteering with Mozambique Horse Safari learning what it would take to start their dream business. Mel laid out their five year plan to Pat and Mandy Retzlaff and Mandy replied "Darling, why wait? Go home and just do it." That is exactly what these ladies did. In 2013 they sold their house in town, moved to the country, and started their operation with only three rescue horses.

Minimum riding ability

MINIMUM RIDING ABILITY

You need to be an intermediate or experienced riders to join the trip. A good physical condition is also required.

There is a mounting block available at the trailer, but if you have to dismount on the trail for any reason (bathroom breaks included), riders do need to be able to mount on their own. We can often find an appropriate rock or log to assist.

Rider weight limit: 90 kilos / 14,1 st / 198 lbs. Slightly heavier riders may be accommodated on request.

PACE

The pace is moderate, with trots and canters when the terrain allows.

The riding is in groups, often single-track or in pairs. The guides ask riders to give each other about a horse's head distance between themselves and the horse in front. They can split rides at times if a rider doesn't feel comfortable at a canter.

TACKING ABILITY AND PARTICIPATION

Your help is needed to prepare, groom, and saddle your horse.

TRIP CONDITIONS AND REQUESTED EXPERIENCE

Experience of a multi-day riding holiday is not required but is a plus.

There may be times when you will need to dismount and walk the horses for short distances.

The ranch is located at high altitudes and you ride in even higher altitude areas. If you have any altitude sensitivities, please look at medications before arrival.

This holiday is best suited to guests with an interest in horse welfare with the opportunity to learn from people with extensive experience in rehoming rescue horses.

EQUESTRIAN EQUIPMENT

Helmets are strongly recommended. For safety and hygiene reasons, bring your own equipment.

Western tack.

Chaps can be borrowed, depending on availability.

TRAVEL INFO

COMFORT

Accommodation is in a comfortable guesthouse, tastefully decorated in a rustic Southwestern style. There 3 bedrooms and two bathrooms, kitchen, and common living room for relaxation, books, and games available.

In order to avoid charging a single supplement, we offer the private rooms on a first-book, first-served basis. The two upstairs rooms are private but do share a bathroom. The downstairs room has two full beds and an en-suite bathroom. We try to accommodate couples or traveling friends in the downstairs room. If you book the downstairs room for two people and one person in your party cancels, your reservation will be considered a solo traveler, and you may be sharing the room with another solo traveler.

Laundry is available and there is free Wi-Fi (intermittent during storms). Towels and hairdryers are provided.

There is an above-ground pool in summer and hot tub year-round.

MEALS

Standard continental breakfast.

Picnic lunches consisting of salads or soups during riding days.

Dinners are served at the table in the family dining room where you will taste typical New Mexican cuisine, rich in local ingredients and spicy. The guides have their own garden and grow their own vegetables.

Vegetarian, vegan, and gluten-free menus available.

CLIMATE

The climate of New Mexico is generally arid, with the state receiving an average of only 380 mm of precipitation per year. These are concentrated from July to September due to the monsoon affecting the southwestern United States. In winter, frost is common at night, snow is possible. During the summer months, we often go for rides early in the morning or late in the evening to avoid the heat of the day and take a nap after lunch. Our autumn runs from September to November, bringing coolness to the air and the possibility of snow towards the end of October

TIPS

Tipping is a common practice in the United States. In all restaurants (except some self-service snacks), it is customary to leave a tip of 10 to 12%. Some tourist establishments may add it automatically.

Tips at the ranch are included in the price.

SUSTAINABLE TOURISM

A stay at this ranch is both a sustainable trip and a step towards helping equines in this part of the world:

- By booking this ranch, you will make a direct and meaningful difference in the life of a deserving horse, as 10% of the proceeds from their fee will go directly to supporting the ranch's own rehabilitation centre.
- Should you wish to, ypi will have the opportunity to sponsor a rescue horse with a low-cost monthly donation.
- Rather than visiting a local rescue, you will have the opportunity to see the daily work, rehabilitation process, and progress with our horses. Some of these horses will be available for adoption as reliable and trusted trail companions.

Other sustainable tourism practices:

1. **Travel light.** It's a little known fact, but the lighter you pack, the better for the environment as heavy bags will produce higher emissions (when flying a plane or driving a car!).
2. **Reduce plastic waste.** Take your favorite reusable bottle with you. Avoid single-use bags, cups, or straws.
3. **Preserve nature.** Always take your rubbish with you during the ride and recycle them. Leave all the flowers or plants as you found them, and never get too close when observing wildlife. Make sure to use eco-friendly products such as body wash or laundry detergent (if camping) to protect both your skin and the environment.
4. **Choose your experiences carefully.** Respect animal life by not participating in any activities that abuse wild animals (shows, elephant rides, etc.).
5. **Support local populations.** Buy local handicrafts, be respectful of customs, and learn about the culture of local communities.
6. **Share!** Raise awareness among your family and friends about sustainable tourism.
